Tools for Community Self-determination

Western North Carolina Food & Farm Economy

Highlights of a data compilation

by Ken Meter, Crossroads Resource Center (Minneapolis) for
Appalachian Sustainable Agriculture Program (ASAP)
April 3, 2006

Western North Carolina Region

23 Counties — *Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Polk, Rutherford, Swain, Transylvania, Watauga, Wilkes, and Yancey Counties*

One million residents hold \$20 billion in annual purchasing power.

The region's farms (2002)

12,212 farms. 22% of North Carolina's farms

- Average size is 85 acres. 57% of farms are less than 50 acres.
- Average value of land and buildings is \$366,166
- 450,641 acres total cropland.
- \$543 million of farm commodities marketed by the region's farmers.
- \$5.4 million of farm subsidies collected by growers (5.6% of state's).
- 11 million pounds of tobacco produced (primarily in Ashe, Buncombe, Haywood, Madison, Watauga, Wilkes, and Yancey Counties — one-quarter of all North Carolina farms raising tobacco are in the ASAP region, but they produce only 3% of the state's tobacco).
- 7.3 million pounds of potatoes produced (primarily in Ashe, Avery, Buncombe, and Cherokee Counties — This is over half of all North Carolina farms raising potatoes, but only 2% of the state's production).
- 268,000 tons of forage (hay) produced (primarily in Alleghany, Ashe, Buncombe, Haywood, Madison, Rutherford and Wilkes Counties — 20% of North Carolina's crop).
- \$218 million of poultry sold — a 10% decline from 1997. One of every seven poultry operations in the state is in the ASAP region, with production concentrated in Wilkes County.
- 287,628 tons of corn silage produced — 33% of state total.
- \$37 million of cattle sold in 2002 (down from \$42 million in 1997), 20% of the state's sales. Primary producers are Alleghany, Ashe, Watauga, and Wilkes Counties.
- \$30 million of milk produced (down from \$37 million in 1997), 20% of the state's sales. Primary producers are Alleghany, Buncombe, Haywood, and Wilkes Counties.
- The region hosts 61% of North Carolina's orchard acreage, with 8,131 acres on 373 farms.

Highlights of ASAP region Farm & Food Economy (North Carolina)

- One of every five of the state's farms raising vegetables is located in the ASAP region, with 495 farms. However, these farms hold only 11% of North Carolina's vegetable acreage (7,284 acres).
- The 101 farms in ASAP's region that sell organic foods are 25% of the state's organic producers, selling \$425,000 of organic products — 8% of the state's total. Primary organic producers are Ashe, Buncombe, Madison, Rutherford, and Wilkes Counties.
- 740 farms sold \$3.1 million of food directly to consumers in 2002 — a 20% increase over 1997. This is one-quarter of all North Carolina farms selling direct. Primary direct sellers are Ashe, Buncombe, Henderson, and Wilkes Counties. Direct sales account for only 0.6% of all commodity sales in the region.

ASAP region's farmers produce \$945 million of food commodities per year (14-year average 1990-2003), spending \$595 million to raise them, for an average gain of \$351 million for crop and livestock production each year, and a total gain of \$5 billion over those years. Still, 52 % of the region's farms reported net losses in 2002.

Farmers earn another \$146 million per year of farm-related income — primarily custom work, rental income and sale of forest products or Christmas trees.

The region's consumers:

The region's consumers spend \$2.1 billion buying food each year, primarily from outside the region. Only \$3.1 million of food products (0.6%) are sold by farmers directly to consumers.

Farm and food economy summary:

Farmers gain \$351 million each year producing food commodities, yet spend \$200 million buying outside inputs, while the region's consumers spend at least \$1.5 billion buying food from outside. While production of agricultural commodities produces a surplus to the region, consumers buy little of this food. Moreover, consumer expenditures for food essentially leave the community. This is a total loss to the region of \$1.3 billion of potential wealth *each year*. This loss amounts to 4 times the value of all food commodities raised in the region.

ASAP region: markets for food

	<i>millions</i>
Meats, poultry, fish, and eggs	\$ 347
Fruits & vegetables	205
Cereals and bakery products	135
Dairy products	175
"Other," incl. sweets, fats, & oils	414

North Carolina Highlights (2002 Agriculture Census)

North Carolina ranking among U.S. producers:

	2002 sales
Number 1 in tobacco production	\$630 million
Number 2 in hog & pig production	\$2.2 billion
Number 2 in Christmas tree production	\$57 million
Number 3 in poultry and egg production	\$2.3 billion
Number 6 in cotton production	\$112 million

Government payments received by farmers: \$97.7 million in 2002 (86% increase over 1997).

Individual County rankings and highlights (2002 Agriculture Census):

Counties with largest rise in government payments:

	Pct rise	1997	2002
Henderson	1,628 %	134,000	2,315,000
Alleghany	497 %	70,000	418,000
McDowell	519 %	27,000	167,000
Transylvania	333 %	12,000	52,000
Haywood	237 %	87,000	293,000
Polk	180 %	55,000	154,000

Counties with largest increase in market income from commodity sales:

	Pct gain	1997	2002
McDowell	65 %	48,700,000	80,700,000
Transylvania	57 %	10,600,000	16,600,000
Avery	55 %	18,000,000	28,000,000
Rutherford	50 %	6,100,000	9,200,000
Graham	39 %	1,300,000	1,800,000
Henderson	29 %	47,000,000	61,000,000
Polk	27 %	3,600,000	4,500,000
Jackson	26 %	6,400,000	8,100,000

Counties with largest declines in market income from commodity sales:

	Pct drop	1997	2002
Clay	-71 %	4,600,000	1,300,000
Swain	-55 %	2,500,000	1,140,000
Buncombe	-38 %	35,000,000	22,000,000
Caldwell	-35 %	24,000,000	16,000,000
Haywood	-18 %	15,000,000	12,000,000
